ABOUT THE ABBEY

Evans Coghill Homes is always thinking critically about smart space design. Nowhere is that more evident than in the new Abbey floor plan. This may be single level living but it is truly a home with multiple solutions. Extra storage and a spacious mudroom create intelligent transition areas. Main gathering room, dining, and kitchen are intimate yet each room has an identity and sense of scale. Large laundry, and cozy study complete the wish list, and don't forget the charming owner's suite that lives grandly for a home of this size. With a series of exciting design options, the Abbey can be perfectly personalized for you.

Renderings shown are meant to be representative of the home and may include details, features or colors not included in the actual home. Please consult sales representative for details.
